Celebrate International Red Panda Day this Weekend at the Assiniboine Park Zoo

For immediate release: Winnipeg, September 14, 2022 – In honour of International Red Panda Day, Assiniboine Park Zoo is hosting **Red Panda Weekend** this Saturday and Sunday. People of all ages are invited to enjoy fun, family-friendly activities and learn about red pandas and red panda conservation.

Red pandas are found in the mountain forests of Nepal, India, Bhutan, China and Myanmar (Burma). According to the Red Panda Network, there may be as few as 2,500 red pandas remaining in the wild as their population has declined by over 50% in the past 20 years.

“Red pandas are an indicator of ecological health of the Eastern Himalayan Broadleaf Forest Ecoregion: one of our planet's biodiversity hotspots,” said Grant Furniss, Senior Director, Zoological Operations, Assiniboine Park Zoo. “Their conservation has huge impacts, when red pandas are protected, the entire area of forests and wildlife are preserved as well. We hope our Zoo visitors will learn about this amazing species and take action to support conservation efforts to protect red pandas from extinction.”

Red panda Zoo Chats with an animal care professional start at 11:00 a.m. and 2:00 p.m. on Saturday and Sunday at Toucan Ridge.
